## NOTES FOR ALL RELEVANT SECTIONS

- For cases of varicella, complete only the data fields for the patient's: Name, Date of Birth, County of Residence, Date of Report, Other Associated Cases, Disease/Condition Name(s), Onset Date, Severity of Varicella, Vaccination History for Reported Condition/Dates, and Did Patient Die Of This Illness; if diagnostic test(s) were performed provide Lab Slip.
- Do not use this form to report weekly aggregate influenza incidence.
- Risk factors, diagnostics, treatments, and symptoms shown below are examples. To see a list of communicable disease resources
  available online, go to <a href="http://kcmo.gov/health/reportable-diseases-and-conditions/">http://kcmo.gov/health/reportable-diseases-and-conditions/</a>. For additional information or to report a case of a
  reportable disease/condition, you may also contact Communicable Disease Prevention at 1-816-513-6152.
- All dates must be in MONTH/DAY/YEAR (01/01/2005) format.
- To be complete, all addresses should include the city, state, and zip code.
- All telephone numbers should include the area code.

#### PATIENT INFORMATION

- Name: Provide the patient's full name, including the full first name.
- Patient Identifier: Provide patient's SSN, medical record, inmate, DCN, or other identifying number and indicate identifier provided.
- Age: If the patient is less than one year, provide patient age in months; or if less than one month, provide patient age in days.
- Race/ethnicity: Patient race/ethnicity is determined by the self-identification of each patient.
- Date arrived in USA: Do not complete this data field for those patients who were born in the United States as an American citizen.
- Address: If homeless, check the appropriate box and provide an address where the patient can be located (i.e., shelter, etc.).
- Patient hospitalized: Indicate if the patient was hospitalized due to the reported disease/condition.

## **REPORTER**

- Reporter name (Form completed by): Provide the name of the individual who completed this form.
- Reporting facility: Provide the name of the facility where the Reporter is employed. Facilities include hospital, physician, local public health agency, etc.
- Date of report: Provide the date the form was submitted by the Reporter.

## RISK/BACKGROUND INFORMATION

- Associated cases: Indicate if other cases (individuals with similar symptoms) are associated with the patient's disease/condition.
- Other risk/background information may include environmental exposure or exposure due to animals, recreation, and occupation.

#### **DISEASE**

- Disease name(s): Specify the disease(s)/condition(s) that is reported on this form, as listed in Kansas City, Missouri Ordinances (Article II, Sec. 34-53, 34-54, 34-55, 34-56, 34-68), available on line at <a href="http://kcmo.gov/health/reportable-diseases-and-conditions/">http://kcmo.gov/health/reportable-diseases-and-conditions/</a>.
- Onset date: Indicate the date when the symptoms started.
- Diagnosis date: Indicate the date when a physician diagnosed the disease/condition.
- Severity of varicella: Indicate the estimated number of skin lesions on the patient's total body surface.
- Vaccination history: Provide the vaccination history for the disease/condition, including vaccine type and manufacturer.

# **SYMPTOMS**

- Symptom: Indicate the symptom(s) associated with the disease/condition. Symptoms may include jaundice, fever, headache, rash, lesion, discharge, etc.
- Onset date: Indicate the date when each symptom started.
- Pertinent information: Provide any additional symptoms-related comments. Attach additional sheets if more space is needed.

# DIAGNOSTICS - Please attach a copy of all lab results. Do not complete this section if lab results are attached.

- Result date: Indicate the date that each laboratory result was reported, usually to the submitting physician, clinic, etc.
- Type of test: Indicate each type of test performed. Examples of tests are carboxyhemoglobin, chest x-ray, culture, EIA, gram stain, ICP/MS, PCR, RBC/Serum Cholinesterase, RPR, serum organochlorine panel, etc.
- Specimen type/source: Indicate the specimen type/source for each test. Examples of specimen types are blood, cerebrospinal fluid (CSF), hair, nails, smear, stool, urine, etc.
- Specimen date: Indicate the collection date for each specimen.
- Qualitative/quantitative results: Indicate the result for each test.
  - o Examples of qualitative results are positive, reactive, negative, equivocal, undetectable, etc.
  - o Examples of quantitative results are 1:16, 2.0 mm, 2000 IU/mL, 65 mcg/dL, 1.8 IV, 10 ppb, index value, etc.
  - Examples of quantitative results for tuberculosis when administering the Mantoux test (PPD), indicate the diameter of the induration (i.e., 2 mm, 15 mm, etc.).
- Reference range: Indicate the reference range for each quantitative result. Examples of reference ranges are: <1:10, <600 IU/mL, 1:64, <10 mcg/dL, etc.
- Liver function results: ALT = alanine aminotransferase (SGPT); AST = aspartate aminostransferase (SGOT)

## **TREATMENT**

- Type of treatment: Indicate the medication(s) and/or therapy(ies) prescribed for treatment of the disease(s)/condition(s).
  - o Reasons for not treating include but are not limited to 'False Positive', 'Previously Treated', and 'Age'.
- Dosage: Indicate the number of units (i.e., 50, 500, etc.), measurement (i.e., cc, mg, etc.), and number of times taken each day and/or week for each medication.
